Who Should Attend

These qualifications are for managers and supervisors in medium and large manufacturing or catering businesses and prior to undertaking the Level 4 in Food Safety.

Learning Outcomes

By the end of this course delegates should be able to:

- Ability to implement and supervise a food safety management system
- Demonstrate an understanding of food safety procedures
- Demonstrate an understanding of the concept of hazards and the risks associated with them
- Demonstrate an understanding of terminology in respect to supervising food safety
- Demonstrate an understanding of the techniques involved controlling and monitoring food safety
- Demonstrate an appreciation the risks linked to cross contamination
- Demonstrate an understanding of the role temperature has to play in the control of food safety
- Demonstrate an appreciation of the importance of supervising high standards of cleanliness in food premises

Course Content

Delegates will receive training in the following subjects:

- Legislation
- Supervisory management
- Temperature control (chilling, cooking)
- Cleaning
- Contamination control
- Applying and monitoring good hygiene practices
- Implementing good food safety procedures
- Contributing to the safety training of others

Course Duration

The course is 3 days in duration (18 hours + exam)

Assessment Method & Certification

The assessment will be by the completion of a multiple choice question examination at the end of the course. On successful completion of the course, delegates will receive a certificate of competence, which is valid for 3 years.

Candidates wishing to obtain a Nationally Accredited Certificate would sit the exam for the relevant Awarding Body (for the additional price of the certification and exam fee of the Awarding Body).

For this Qualification we can currently offer certification from the following Awarding Bodies:

CIEH (The Chartered Institute of Environmental Health)
